

## **Environmental Commitment Policy**

---

Things Electrical is committed to minimising the environmental impact of its activities. We promote sustainable development by meeting legislative requires plus using best practice to prevent pollution from our undertakings. We strive to be environmentally sensitive in all aspects of the organisation, including our products and services. We are conscious of keeping our solid waste to a minimum and conserving energy. We believe responsible environmental practice benefits the staff, local communities and the global community. We aim to:

- Identify and implement environmental systems in our operation
- Educate staff on environmental awareness and encourage any new ideas to be brought forward
- Use paperless quotes, invoices, receipts and reports
- Operate the super-efficient Nissan NV200
- Regularly service work vehicles and promote responsible driving habits
- Ensure Hazardous Substances are properly disposed of
- Purchase the most environmentally sustainable products available
- Encourage suppliers to consider alternative materials
- Create as little waste as possible by limiting the use of non-recyclable materials
- Reuse whatever we can
- Recycle anything that can be recycled
- Support local community projects
- Keep current on the latest environmental initiatives
- Continually assess our practices and products for any improvements that can be made

Allison Hooton  
Director, Things Electrical Limited
